

Clear Magic Adhesive Kit

Fiberglass to Polyethylene Bonding

Our proprietary Clear Magic three-part adhesive is the best in the industry for polyethylene bonding applications. It is a cost-effective, efficient fiberglass to polyethylene bonding kit designed specifically for adhering fiberglass to polyethylene and other plastic materials together.

Clear Magic is designed to be easily applied. The adhesive promoter and accelerator are packaged in easy-to-use spray bottles, allowing for quick application of the Clear Magic kit.

Features & Benefits

- Bonds fiberglass to polyethylene
- Designed for retrofitting fiberglass to polyethylene sumps
- Ideal for fiberglass retrofit lid kits and repair fittings
- Filled adhesive reduces dripping on a vertical surface
- Includes easy-to-use applicator and spray bottle
- When used with PCI fiberglass repair products, polyethylene sumps can be made watertight

Part No.	Description
ADH-CM30G	Penetration Fitting, Poly Adhesive, 30g Tube
ADH-CM30G-K	Penetration Fitting, Poly Adhesive, 30g Kit (Includes Promoter / Accelerator)
ADH-CM300G	Penetration Fitting, Poly Adhesive, 300g Tube
ADH-CM300G-K	Penetration Fitting, Poly Adhesive, 300g Kit (Includes Promoter / Accelerator)
EQP-AP30GSY	Applicator Gun (Required for ADH-CM30G Tube)
